

FUNGI FOUND AT LAIDE WOOD 18 September 2013

Slime mould

Mucilago crustacea Dog Vomit Slime Mould!

Plant parasites

Golovinomyces montagnei Powdery mildew on slender thistle
Leptotrochila ranunculi Leaf spot on creeping buttercup
Melampsora capraearum Rust on willows
Phragmidium violaceum Rust on bramble
Podosphaera aphanis Powdery mildew on tormentil
Podosphaera filipendulae Powdery mildew on meadowsweet
Pseudopeziza trifolii Leaf spot on red clover
*Puccinia primulae Rust on primrose
Taphrina tormentillae Gall on tormentil

Mushrooms and toadstools and other large fungi

*Amanita gemmata
*Calocera furcata Forked stagshorn
Dacrymyces stillatus Orange jelly blob
Entoloma sericeum Silky pinkgill
Gloephyllum sepiarium Conifer mazegill
Gymnopus androsaceus Horsehair parachute
Gymnopus dryophilus Russet toughshank
Hebeloma mesophaeum Veiled poisonpie
Hygrocybe conica Blackening waxcap
Hygrophoropsis aurantiaca False chanterelle
*Inocybe striata a fibre-cap
*Inocybe subcarpta a fibre-cap
Inocybe whitei a fibre-cap
Lactarius deliciosus Saffron milkcap
Lactarius hepaticus Liver milkcap
Lactarius rufus Rufous milkcap
Lactarius subdulcis Mild milkcap
Lactarius vietus Grey milkcap
Lichenomphalia umbellifera Heath navel
Lycoperdon nigrescens Stinking puffball
Lycoperdon pyriforme Stump puffball
*Lycoperdon umbrinum Umber puffball
Mycena galopus Milking bonnet
Mycena vitilis Snapping bonnet
*Postia ptychogaster
Russula badia Bay brittlegill
Russula emetica The sickener
*Russula luteotacta Yellow spotting brittlegill

Russula sardonia	Primrose brittlegill
Suillus bovinus	Bovine bolete
Suillus luteus	Slippery Jack
Suillus variegatus	Velvet bolete
Tricholomopsis decora	Prunes and custard
Tricholomopsis rutilans	Plums and custard

Uncommon species marked *
